

LOG IN FASTER WITH FINGERPRINT AUTHENTICATION - NOW AVAILABLE ON THE NAVEO MOBILE APP

The Naveo Mobile App now features fingerprint authentication for quicker access to your accounts. At Naveo, we take your security seriously, which is why we've implemented this important feature that is not only secure, but convenient. Now you can log into the Naveo app simply with the touch of your finger.

Once the app has been updated and if your mobile device supports fingerprint technology*, enroll in fingerprint authentication by following the steps below.

- **Log into the Naveo Mobile App**
- **Select "Mobile Services" from the menu**
- **Click "Manage Fingerprint"**
- **Click "Fingerprint Enrollment Disclosure" and click Accept**
- **If your device has fingerprint technology turned on, you will be prompted to name your device and re-enter your iBanking username and password.**
 - **Click Enroll**
- **If your device does not have fingerprint technology turned on, go to your device settings to turn them on and then refresh the app.**
